

Architectural Sheet Metal

Fisher Roofing is looking to expand our team and is currently hiring experienced **Architectural Sheet Metal Installers**. If you are a hard worker with a positive attitude, you will have the opportunity to grow with us and advance within the company. This is an opportunity to use your skills and knowledge and have input. We value what you have to say and suggest. Be part of a growing winning team!

We are currently hiring for our commercial roofing department. These positions require a minimum of two years field sheet metal experience, experience with shop fabrication is a bonus! We offer on-the-job training and opportunities for advancement. The majority of our work is in the Portland Metro area, travel is very limited and you will be home every night.

Successful candidates must be:

- Willing to work hard. This position requires strenuous physical labor frequently requiring you to climb, bend, kneel and repetitively lift lifting 80-90 pounds.
- Comfortable climbing ladders and working on high steep roofs in all weather conditions.
- Reliable and highly motivated.
- Safety minded. Safety is a priority and all employees are required to follow the requirement of our safety program at all times.
- Willing to learn a trade and follow directions.
- Willing to work in all weather conditions, and work overtime as required.
